### **About This Content**

A spooky new chapter for "Song for a Hero". Fight your way through 3 new levels with haunted mansions and crypts full of dark creatures that might as well have come straight from a horror movie. A brand-new campaign with plenty of rock'n'roll, with vocals by none other than the Son of the Heavy Metal God himself, DETONATOR.

A Lenda Her\u00f3ica is already a game that caught me right in its first minutes, a modern game with face and characteristics of old games, a risky formula, but in this case, worked very well. I like the dynamics of each world on the map to be a scenario style and a very different atmosphere from the other (as the olds did) A Lenda dos Mortos not only does this with a very interesting theme, as it does this making this world the best world of the whole game, with special emphasis on how good the stage of the mansion is. If you enjoyed the normal game, do not waste time and get the DLC too!
